2021 FALL PILOT PROGRAM

Track. Learn. Win.

VIZN Stats is launching a pilot program to enable coaches to use our progress-tracking software at a discounted price. This pilot program will run from August 16, 2021 through the end of the calendar year. We are currently limiting this pilot program to **twelve teams**, and many spots have already been filled. We hope you can be the next team to be a part of this discounted pilot program.

What is VIZN Stats?

VIZN Stats reduces the time baseball coaches spend capturing and analyzing practice performance metrics. You can record standard and customized data fields on your phone directly to VIZN Stats, which then instantly analyzes, compares, and evaluates your players.

What's in it for me?

Full access to our web application

You will be able to use all of our progress tracking tools and analysis features with reports designed specifically for you and your team

Built for you

You will have the opportunity to shape this tool specifically for the needs of your team by providing feedback and recommending features that will work into your routines

24/7 Customer support

We are always available to answer questions, solve problems, and listen to feedback

Be the first

Gain a competitive advantage over other teams by identifying strengths and weaknesses on your team, maximizing player engagement in practice, and scouting competitive teams

Access to practice templates

You will have free access to practice templates used by other highly successful coaches and programs

Discounted access

You will have early access to our software at a heavily discounted price

What's the cost?

Our product is still in development, and we will routinely ask for your feedback. In exchange for this feedback, you will have discounted access to the software through the end of the year.

- Cost of participating in the pilot program: **$100**
- Cost breakdown: **$20 / month** for August-January

When can I start?

The pilot program runs from **August 16, 2021** through the end of the year. During this time, your usage and feedback will help us make improvements to the software that will save you time and improve your data insights. Once the pilot program is completed, we will launch the software to a larger audience and you will have the opportunity to cancel or renew your account for another year.
